# Publisher's Note: Continued Publication of *Surgical Techniques Development* by MDPI

Agata Kołomańska

MDPI, Avenida Madrid 95, 08028 Barcelona, Spain; agata.kolomanska@mdpi.com

*Surgical Techniques Development* was launched in 2011 and has been focused on progressive surgical techniques and advanced technologies, such as laparoscopy, minimally invasive surgery, endoscopy, robotics, and plastic surgery [1].

*Surgical Techniques Development* was previously published by PAGEPress and will be published by MDPI as of 24 January 2022 [2].

Dr. Egidio Riggio from the Plastic Surgery Unit, National Cancer Institute of Milan (INT), Italy, who has served as Editor-in-Chief of *Surgical Techniques Development*, along with 25 Editorial Board Members have kindly agreed to continue to serve in their roles [3].

We are delighted to take over the publication of *Surgical Techniques Development* to continue with the legacy of this journal and to continue providing the best service to the scientific community of surgeons worldwide.

As of 2022, *Surgical Techniques Development* will adopt a quarterly publication schedule.

We are excited to welcome the *Surgical Techniques Developments* Editorial Board to MDPI. We look forward to publishing your work in our journal!
